

# **Lili Kiosks introduces instant hot meals at your convenience with the incentive of giving back.**

People on the go can get the hot food and give back to those in need with the click of a button.

Lili Kiosks (Love In Little Instances) is making it easy for customers to fulfill their hunger and the needs of the less fortunate. The self-serve kiosks are being placed in local communities that allow people to conveniently purchase restaurant quality meals from our extensive menu. Customers will be given the option to receive their food hot and ready to enjoy on the spot, or frozen to heat up at their convenience. Every purchase that is made leaves a credit in a kiosk for someone in need to redeem, at no extra cost to the customer.

In today's world, people are burdened with so many responsibilities, leaving no time to enjoy their own lives, let alone think about what might be going on in someone else's life. After a long day at work, people just want to eat a hot meal and spend time with their families and friends, not drive all over the place running errands.

These kiosks will provide busy people with hot meals and life's necessities when they're on the go without making any extra stops. Their convenient locations and the efficient interface will make it easy to purchase everything they need in one go. Lili Kiosks also allow customers to provide for those in need. Each purchase made at a kiosk will automatically provide a credit for another purchase, which can be redeemed later. Anyone who may be struggling financially will be able to use the credit at the kiosk to purchase food. Only one credit can be redeemed every five minutes. Any unredeemed credits at the kiosks will be given to local charities at the end of every month. Customers at Lili Kiosks can feel happy knowing that every purchase they make will be helping someone else in need!

"Having the Lili kiosk service has really helped contribute a hopeful light into our community. I came from a family who lived from paycheck to paycheck trying to buy necessities each month," said Brendina Shong, CEO of Lili Kiosks, "I want to help give back to the community that helped my family and I get to where we are today."

Our kiosk is easy to use! To make a purchase, walk up to the kiosk and indicate whether you want to pay or use a donated credit. When adding a meal to your cart, select if you'd like to receive your meal hot or frozen, and the kiosk will make the appropriate accommodations. After checking out, your purchase will be dispensed for you to be on your way. Credits will automatically be updated for every item purchased. If you're someone in need, select the credits option on the screen. From there, you will be able to select one meal to redeem with your credit. The meal will be dispensed at no cost.

It's a convenient way to meet customer's expectations through a self-service kiosk. Our self-serve kiosk allows customers to order hot meals with the ability to complete payment transactions at their own pace.

"I love Lili Kiosks! They always have delicious hot food on my way to campus," said Anthony West, a CU Denver student, "I also like how I'm helping people every time I buy something. It really makes me feel like I'm helping the people in my community."

Get involved today! Just look for the happy yellow boxes to get what you need and help others get what they need too.
